

## What is a CDCES?

### A Certified Diabetes Care and Education Specialist® (CDCES®)

is a health professional who possesses comprehensive knowledge of and experience in diabetes care and prevention, prediabetes, and diabetes management. The CDCES educates, supports, and advocates for people affected by diabetes, addressing the stages of diabetes throughout the lifespan. The CDCES promotes self-management to achieve individualized behavioral and treatment goals that reduce risks and optimize health outcomes.

The CDCES certification is designed and intended for health professionals who have responsibilities that include the direct provision of diabetes care and education (DCE), as defined by the Certification Board for Diabetes Care and Education (CBDCE).

CBDCE is a national, not-for-profit certification organization that administers the Certified Diabetes Care and Education Specialist (CDCES) credential. A tradition of excellence, the CDCES certification process is built on over 35 years of integrity and has become a standard of excellence for the delivery of quality diabetes care and education.

The CDCES credential is held by registered and advanced practice nurses, registered dietitian nutritionists, pharmacists, physicians, PAs, and other health professionals who provide diabetes care and education. Over 19,000\* individuals hold the CDCES credential. (\*Jan. 2024)

## Why Certify?

The CDCES credential is a professionally recognized achievement and a sought-after mark of excellence in the diabetes community. Obtaining certification will demonstrate your diabetes skills and expertise, expand your career opportunities, provide you with credibility and recognition on the diabetes care team, help increase your marketability, and will optimize health outcomes for people with diabetes.

*It is crucial to have a CDCES as a team member in the hospital, as well as, outpatient setting. The CDCES credential empowers the person with diabetes to implement care that the physician prescribed and learn day-to-day lifestyle management.*

### Current CDCES

The program is accredited by the National Commission for Certifying Agencies (NCCA).

## Mission

Promote ongoing quality diabetes care, education, prevention & support by providing certification and credentialing programs that incorporate and reflect best practices.

**Please note:** The Certified Diabetes Care and Education Specialist® (CDCES®) certification was formerly known as the Certified Diabetes Educator® (CDE®) certification.

## Earn the Most Recognized Credential in Diabetes Care and Education

## What are the Eligibility Requirements to Apply for the Certification Examination?

**Note:** The following is a general overview of the eligibility requirements. For full details, visit the CBDCE website and access the current Certification Examination for Diabetes Care and Education Handbook.

- **Discipline:** Qualifying health professional license/registration including, but not limited to: RN, NP, RD/RDN, RPh, PA, and ACSM-CEP®. See Handbook for all qualifying disciplines. \*
- **Professional practice experience** (work or volunteer):
  - **General:** 2 years
  - **Diabetes education:** 1,000 hours - within a maximum of 5 years (with 200 of those hours in the last 12 months)
- **Continuing education (CE):** 15 hours of diabetes-related CE within past 2 years

\* **What if I Don't Meet the Discipline Requirement?**

Visit the CBDCE website to learn about the Unique Qualifications Pathway (UQP) for health professionals holding advanced degrees in a health-related area or concentration. Pre-approval is required.

## Examination

The Examination is computer-based and delivered year-round at Assessment Centers throughout the U.S. and via Live Remote Proctoring.

## How to Apply

When you meet the requirements and are ready to test, you can apply online for the Examination through your CDCES account. When you submit an application, you will either be approved and issued a 90-day window in which to schedule and take the Examination or selected for an audit requiring you to verify that you have met all of the eligibility requirements. Review the Handbook for detailed information on applying for the Examination.

## What is the Examination Fee?

The examination fee is \$350. The CDCES certification is valid for five (5) years.

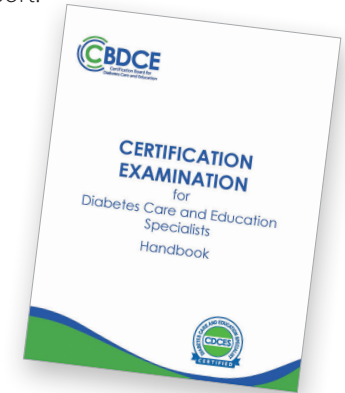

## How to Prepare for the Examination

Refer to the current Handbook for information on how to prepare for the Examination. It includes the Examination Content Outline (Outline) where you can gauge your current knowledge and experience in relation to what's covered on the Examination. There's also a list of resources, sample questions, and other information. You'll also want to take a look at CBDCE's prepare page on the website for ideas in preparing for the Examination.

Another resource for preparing for the Examination is provided through CBDCE's voluntary practice examination (PE). The PE, available for \$55, is composed of 50 multiple-choice questions that are illustrative of the type and format of questions included on the Examination and its focus is practice, rather than self-assessment.

## When Will I Receive the Examination Results?

In most instances, you'll receive the results right after you've taken the Examination. The Handbook has important information on interpreting the score report.
