Guidelines for Reporting Continuing Education Activities – Renewal of Certification

Minimum of 75 Hours of Acceptable Activities Required To Renew by CE

1. Expectations

- Health professionals specializing in diabetes education will demonstrate through renewal of certification:
 - knowledge and skills are up-to-date
 - ability to practice proficiently, safely, and in a manner consistent with current National Standards of Diabetes Self-Management Education and Support (NDSMES)
- All individuals will engage in a personal assessment to identify professional needs and participate in appropriate activities that are inclusive of the Examination Content Outline in the current Handbook.

2. Renewal by Continuing Education Cycles

For those renewing for the first time, the start date for accruing professional practice hours is the January 1 following the year of initial certification.

For those who have previously renewed, the start date for accruing practice hours is the day after the deadline date of their last renewal by continuing education or the fall exam deadline date (e.g., for those renewing in 2022, those who renewed by continuing education using the standard deadline of September 15, 2017, accrual starts September 16, 2017; for a CDCES who renewed by examination on June 6 or November 27, 2017, the accrual date starts on September 16, 2017).

All CE hours must be obtained prior to the date of application for renewal.

3. CE Activities

- A total of 75 CE hours are needed to renew by CE. You may earn all the hours in the formal category or a combination of formal and expanded categories. Be mindful of the expanded CE hour limits. Additionally, use of the expanded hours is not required.
- formal CE Activities must be provided by or approved by a provider on the CBDCE List of Recognized Providers.
- must be applicable to diabetes. All subject matter on the Certification Examination Content Outline published in the current Handbook is considered applicable to diabetes. (See Examination Handbook, Appendix III, or Renewal by Continuing Education Handbook, Appendix II, pages 15-16)
- must be completed as defined by the renewal of continuing education cycles policy. (All activities must be completed prior to the application deadline and before submitting the application.)

3. CE Activities (continued)

- must be at a professional level that enhances the quality and effectiveness of diabetes self-management education practice.
- do not have to be discipline specific nor do the activities have to be in any specific area of concentration, e.g., social workers may attend a diabetes related nursing program and use those clock hours for renewal of certification.
