Certification Board of Diabetes Care and Education (CBDCE)
330 East Algonquin Road, Suite 4
Arlington Heights, IL 60005

Dear Board Members,

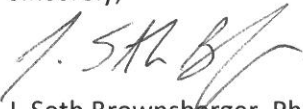

It is my pleasure to be writing this letter of recommendation for Carly Burton to be considered as a member of the Certification Board of Diabetes Care and Education. I have worked with Carly for 7 years at Apria Healthcare, serving as the Director of Pharmacy of her department. Carly holds multiple licenses for our pharmacy in various states as well as having acquired several personal certifications to expand her expertise.

Carly has become our resident diabetes expert and obtained her CDCES in 2017. Our company has dispensed diabetic testing supplies as well as recently begun dispensing Continuous Glucose Monitors. Carly has educated, and continues to educate, both our staff and patients in the proper use of these supplies and overall diabetes disease state management. As a company we are making it a primary focus to grow our diabetic patient population. We utilize a patient centric approach, and her knowledge and expertise has been invaluable in understanding the needs of patients with diabetes and implementing programs/resources to meet those needs.

Our monthly patient diabetes newsletter, diabetes website landing page, and patient education materials are greatly influenced by Carly. I know I can count on her to make updates and to continue to remain on the forefront with changes in diabetes care ongoing. Carly acts independently in the pursuit of knowledge and further education to improve herself as a pharmacist, CDCES, employee, and individual.

I believe Carly Burton would be a wonderful addition to this board adding value as an experienced Pharmacist and CDCES with a background in both retail pharmacy, mail order, and Durable Medical Equipment (DME) as well as diabetes care and education.

Sincerely,

J. Seth Brownsberger, Pharm.D.
Director of Pharmacy
